

Energy solutions for business

Saving you time, stress and money

& Benefits Partner

Giving business energy the care and attention it needs

While energy can be one of the most significant overheads for a business, finding the time to give it the full care and attention it needs is hard. The business energy bill is big, but there's always more important things to look after. And that's where we come in ...

My Energy Consultants not only finds you the best energy deals for your business, it makes sure that you never overpay. We help you reduce energy wastage, meet energy legislation obligations and handle your utility infrastructure projects as well.

Energy solutions for your business

Founded by business utility industry professionals, My Energy Consultants brings you the specialist knowledge and insight you need to make all the right energy decisions for your business.

With more than 20 years experience, we know the best suppliers, of gas and electricity, of infrastructure and software systems. We're forward-thinking, understand the legislation and how to increase your energy efficiency.

Rest assured, we'll save you time, stress and money.

Energy services tailored to your business

■ Procurement

Finding you the gas and electricity supply you need on the terms most favourable to your business. Leave it to us.

Switching to 100% sustainable sources of energy? We'll find you the certified renewable-only utility contract that fits your business best.

■ Bill validation

Scrutinising your gas and electricity invoices, we'll make certain you're only going to pay what you should be paying. Any errors, we'll spot them.

■ Cost recovery

Typically examining your last 6 years worth of gas and electricity billing data, we'll identify any overcharging and get you the refunds that are rightly yours.

■ Energy management

Providing the energy management technology you need to get your business using energy smarter, reducing wastage and making real energy savings.

■ Compliance

ESOS, EPC, SECR, MEES ... navigating a complex legislative landscape isn't easy. We'll make sure you meet all your obligations and avoid the penalties.

■ Infrastructure

Making improvements or alterations to your business gas and electricity infrastructure can be challenging, we'll take care of it all for you.
